MUSD PRESCHOOL: EXCEEDS EXPECTATIONS

Named Best Preschool In Pinal County

- Grande Living Magazine

About growth and development: "I've been so blown away with how well the preschool is run and the growth and development of my child. She is learning things that my older child didn't learn until kindergarten or first grade." **About the value:** "It's infinitely better than all of the other options in town. We were paying a little more than what we pay currently for MUSD preschool at another location for half the amount of time, so it is definitely worth every penny." -Annie Giagni, Preschool Parent
