

Superintendent's Snapshot

MARICOPA UNIFIED SCHOOL DISTRICT

July 30, 2021

Dear MUSD Parents,

Recently, the Center for Disease Control announced revised COVID-19 mitigation recommendations for grades K-12.

Although Arizona State Statute does not permit school districts or charter schools to mandate mask-wearing among school-age children, **county, state, and federal health agencies** strongly recommend the wearing of face masks to help reduce the transmission of COVID-19 and/or variants of COVID-19.

We will continue to monitor the data and work with Pinal County Health Department to promote the health and safety of students and employees.

Thank you for choosing MUSD.

Sincerely,

Dr. Tracey Lopeman, Superintendent
Maricopa Unified School District
