

SENIOR CELEBRATIONS!

May 20, 2022

Dear MUSD Parents,

MUSD is proud to offer multiple paths to graduation. Often, students leverage their experiences in Career and Technical Education (CTE), CAVIT, and special interest clubs to make connections and gain transferable skills that lead to exciting careers.

Christine Surber used her background as a CTE Marketing student and Vice President of Hospitality for Maricopa DECA to build valuable communication and leadership skills. Currently a lifeguard at Copper Sky, she plans to attend Central Arizona College where she will begin her journey in elementary education.

Luis Cadena Vallejo is a four-year AFJROTC student and Link Crew Leader. Personal responsibility, character, and leadership are among the most important qualities he has refined that make him attractive to any future employer. Luis will apply each of those skills in his next chapter at Central Arizona College to pursue the Electrician Installer and Wilson Electric apprenticeship programs.

Allyson Wright is an MHS CAVIT success story. In January 2022, she passed the Arizona State Board Certified Nursing Assistant exam while enrolled at Maricopa High School and is the only student in the CAVIT program to earn a CNA certificate from Central Arizona College. She was hired as a CNA at Chandler Post Acute Rehab Center as the youngest CNA on the floor working with patients. Allyson will continue her education in Nursing at Central Arizona College to become an RN, and ultimately a Nurse Practitioner specializing in children's oncology.

Motivated and driven, these students are on the fast track to meaningful careers that will serve their community.

Thank you for choosing MUSD, where great futures begin.

Sincerely,

Dr. Tracey Lopeman, Superintendent
Maricopa Unified School District
