

Superintendent's Snapshot

MARICOPA UNIFIED SCHOOL DISTRICT

April 16, 2021

Dear MUSD Parents and Staff:

Maricopa Unified School District is **poised to adopt new K-12 science textbooks** for the next several years. Materials for consideration align with updated Arizona Science Standards and equip teachers with the tools to provide first-class science instruction.

After careful analysis and evaluation, three options are available for parent review. **Parents are invited to review the materials that are being considered and provide input.** To review the sample materials and textbooks, please make an appointment with your student's school. The review/input period is April 19-April 30. Feedback may be emailed to sciencetextbookfeedback@musd20.org through May 1.

High-quality science education inspires discovery and lifelong critical thinking. Thank you for your interest in developing tomorrow's problem-solvers.

Thank you for choosing MUSD.

Sincerely,

Dr. Tracey Lopeman, Superintendent
Maricopa Unified School District
