

Superintendent's Snapshot

MARICOPA UNIFIED SCHOOL DISTRICT

August 6, 2021

Dear MUSD Parents,

MUSD is working closely with the Pinal County Health Department to monitor the impact of each new COVID-19 case in our district. We will always communicate directly with those who may have been in close contact with a student or staff member with a confirmed case of COVID-19.

In light of current trends in transmission rates for our community and in the interest of transparency, Maricopa Unified School District has developed a new COVID-19 dashboard for the 2021-22 school year. In addition to checking your email for general notifications, you may also visit the **[MUSD COVID-19 Dashboard](#)** to view data on active cases in our district. The Dashboard will be updated every Friday by 4:00 PM.

Thank you for choosing MUSD.

Sincerely,

Dr. Tracey Lopeman, Superintendent
Maricopa Unified School District
