

Skateboards/Scooters on Campus-

For safety and security reasons, riding a skateboard/scooter is not permitted on campus at any time.

Skateboards/scooters are permitted for student transportation to and from campus. Once the student arrives on campus they have two choices.

1. Lock up the skateboard/scooter in the appropriate bike lock area.
2. Find a teacher who agrees to hold the skateboard/scooter until the end of the school day. Security/custodial/admin personnel will not open locked doors for students if they do not retrieve the item at the appropriate time after school.

If a student is found to be riding a skateboard/scooter on campus during the school day then the item will be confiscated and the student will be subject to disciplinary action.

1st Offense- Student will receive a discipline referral and will be able to retrieve the item at the end of the school day.

Subsequent Offenses- Student will receive a discipline referral and a parent/guardian will have to retrieve the item from an administrator.
